- Infection Control (Surface Asepsis)
- Medical Emergencies and Equipment

**4. Travel and Accommodation Information**

- Airport Information
- Ground Transportation
- Hotel Accommodation

**5. Appendices**

- Campus Map
- Clinic Floor Plan
- Expendable Dental Materials Lists

## 1. School Facility and Services

- **Location, Building Access and Hours:**

- **Dental hygiene address:**

3949 S 700 E, 2nd floor, Murray, UT 84107

- **Telephone number:**

801-713-4200

Please contact Clinic Manager, **Tina Sophia**, at 801-713-4200 with questions regarding the school, equipment, etc.

**Directions to Clinic:** Enter from the door on the North entrance of the building and take the elevator up to the 2nd floor. Upon exiting the elevator, use the glass doors to the left side, turn right, and the clinic is just up the hall on the left. There are blue directional signs to follow as well.

**Building Hours:** The building will be open from 6:00am-6:00pm daily for duration of exam.

- **Parking:**

Students may park as usual, using their parking passes. Others are welcome to park on the north side of the building in two-hour parking, on the second level of the parking structure or the third level of the parking structure. Arrangements will be made by Fortis College to not be ticketed.

- **Security and Emergency Services:**

Security is provided 24 hours a day by our property site management, Wasatch Property Management.

Emergency exits, portable oxygen, fire extinguisher and AED unit are located in the clinic and will be identified and discussed during the clinic tour.

*References for medical needs are as follows:*

Emergency Ambulance, Fire and Police:	911
St. Marks Hospital -- emergency:	801-268-7111
Campus Security: Stephanie Garrett:	801-961-1007

- **ATM Machine:**

There is not an ATM machine on campus. One is located across the street at Zions Bank: 3880 S 700 E SLC UT 84107

- **Food Services Onsite:**

Avanti market is located in the break room on the second floor with food and drinks for purchase. There are also additional vending machines located on the first floor. There are several restaurants within walking distance to the campus.

## 2. Preparing for the Hygiene Exam

- **Patient Screening:**

The dental hygiene clinic will NOT be available for candidates needing to conduct screenings on their exam patients. Fortis College will NOT provide patients for candidates. Candidates must not ask the school for patients or patient records at any time during the WREB exams.

- **Radiographs:**

Traditional film, digital, or phosphor will be available for a fee of \$1 per film and a phosphor panorex is available for \$5.

- Candidates will need to provide their own film holders and mounts.
- Digital radiographs will be available.
- Contact the Fortis clinic manager to schedule a radiology appointment time at (801) 713-4200

- **Administration of Local Anesthetic:**

- Practitioner(s) **will** be available during the exam to administer local anesthesia to Candidate Patients upon request. *All requests MUST be made with a minimum 1-week advanced notice with the Fortis Dental Hygiene Program Director (801) 713-0921, 24hr advanced notice for retakes.*

- Fortis will provide this service free of charge.

- **Dental Operatory Units:**

- **A.** Each clinic operatory is equipped with a Pelton-Crane unit, with operator and assistant chairs.
- **B.** Cavitron ultrasonic unit
- **C.** Four hole Midwest style handpiece connector for slow speed motor
- **D.** Tri-function air water syringe
- **E.** HVE and saliva ejector
- **F.** Radiograph view box
- **G.** X Ray tube head

- **Equipment, Instruments and Expendable Dental Materials:**

Refer to the respective WREB Candidate Guide for a list of materials and armamentarium that the Candidate must provide.

- **A. Handpiece and Proply Angle Hookups:**

Each operatory is equipped with one (1) Dental chair (Pelton & Crane), one (1) delivery unit equipped with an air/water syringe, high volume suction and low volume suction (P & C), one (1) slow speed handpiece hookup pictured below.

- **NO handpieces will be available for use or rent from Fortis.**
- Fiber optic handpieces are NOT compatible with our dental units, example of correct handpiece style pictured below.
- The air pressure to each operatory chair, and all handpieces, is factory set at approximately 35 to 50 psi.
- Please ensure that any slow-speed handpiece you bring has a working gasket and will operate effectively within these parameters.

- **B. Sonic/Ultrasonic Devices:**

All operatories are equipped with a 30K Cavitron® unit available for use during the exam at no additional fee.

- Ultrasonic inserts and handpieces must be 30K to be compatible with Cavitron® units.
- Candidates are responsible for providing all 30K inserts/tips and handpieces for their own use.

- \*No handpieces or insert tips are available for rent/use.
- Units are **NOT EQUIPPED** with quick disconnect water attachments.

**C. Air/Water Syringe Tips:**

- Disposable air-water syringe tips will be available with the disposable supplies

**D. Blood Pressure Cuffs and Stethoscopes:**

- Blood pressure cuffs or stethoscopes are not available for Candidate use.
- Candidates must bring own or share with another candidate.

**E. Expendable Materials:**

Expendable dental materials supplied by the school are noted in **Appendix**

**A.** Items not listed are the responsibility of Candidate.

- **Sterilization Services:**

- Sterilization will close at 5:00pm each weekday and 4:00pm Saturday and Sunday.
- Candidates should arrive with all instruments previously sterilized for exams.
- Sterilization supplies will be available on the supply carts and in the sterilization area.
- If you choose to have your instruments sterilized by the Fortis College clinic upon completion of your exams, give your bagged instruments, with your candidate number to the sterilization attendant. Please allow 24 hours for sterilization process.
- Candidates must clean and bag instruments appropriately with your name and candidate identification to ensure their return to you.

*\*Note, we will not ultrasonic or remove your items from their labeled bags prior to sterilization.*

- If you choose not to have your instruments sterilized by Fortis College upon completion of your exams, give your contaminated bagged instruments, identified with your candidate number to the sterilization attendant located in the sterilization room. Items will be enclosed in a biohazard bag and placed at the front desk for immediate picked up.
- All instruments can be claimed at the clinic reception desk by candidates only from bins marked "Sterile or Non-Sterile" by 5:00pm each weekday and 4:00pm Saturday and Sunday.
- It is the Candidate's responsibility to notify the sterilization attendant prior to the retake examination to sterilize instruments.

- Fortis College is not responsible for lost, stolen or damaged instruments

### Preparing for the Local Anesthesia Exam

- **Equipment, Instruments and Expendable Dental Materials:**

Refer to the respective WREB Candidate Guide for a list of materials and armamentarium that the Candidate must provide.

- A. Air/Water Syringe Tips:**

- Disposable air-water syringe tips will be available with the disposable supplies

- B. Expendable Materials:**

Expendable dental materials supplied by the school are noted in **Appendix B**. Items not listed are responsibility of Candidate.

- **Sterilization Services:**

- A sterilization assistant will be staffed in the sterilization room to process all contaminated instruments. See sterilization services listed above

### 3. During the Clinical Exam

- **Infection Control (Surface Asepsis):**

- A. Surface Asepsis**

- Each operatory will have Lysol IC or disinfectant wipes available for surface disinfection of the clinic operatory (patient chair, operator and assistant carts/stools, light handles, counter tops, etc.).
- Handles of the unit light, x-ray heads, and air-water syringes may be covered with clear plastic all wrap in operatory.
- Plastic chair barriers and plastic wrap are provided.
- Disposable plastic over gloves are available for candidates (on cart).

- B. Personal Protective Equipment**

- Candidate must provide own clinic attire, which must meet any standards imposed by WREB. Clinic gowns may not be worn outside the clinic area or from one clinic to another.
- Appropriate protective clothing, including lab coats must be worn in occupational exposure situations.
- Nitrile (non-latex) gloves and masks are available in each operatory.
- Candidates are to provide their own OSHA-acceptable protective glasses for themselves and their patients.
- Antibacterial soap is available at all sinks within the clinic.
- Hand sanitizer is available at all sinks within the clinic.

### **Hazardous Waste Disposal (exam-type specific):**

**Hygiene:** Any blood/saliva-soaked waste is considered hazardous and must be disposed of in biohazard bags available in the Alabama cart.

Biohazard bags may be attached to the sides of the suction arm. At the end of each session, bags should be sealed with tape or self-sealing strip and brought to sterilization where they will be placed in biohazard waste containers.

**Local Anesthesia:** Any blood/saliva-soaked waste is considered hazardous and must be disposed of in biohazard bags available in the Alabama cart.

Biohazard bags may be attached to the sides of the suction arm. At the end of each session, bags should be sealed with tape or self-sealing strip and brought to sterilization where they will be placed in biohazard waste containers.

**Sharps Disposal:** In each cubicle area, there is a red plastic sharps container. Place all needles, anesthetic cartridges, and other used sharps in these receptacles.

- **Emergency Medical Equipment:**

In order to alert WREB/clinic personnel to a medical emergency occurring with your patient, the following protocol must be followed:

- Remain with your patient. Do NOT leave him/her unattended. You must alert & send a nearby assistant/responsible person to report the problem to the WREB Chief Examiner.
- The WREB Chief Examiner will make a judgment as to whether an emergency requiring outside help exists.
- If needed assistant/responsible person will be sent to the nearest phone to activate the Emergency Medical System (EMS) by dialing 911.
- As appropriate for type of emergency:
  - Place the patient in either a sitting or supine position,
  - Assess responsiveness
  - Check breathing
  - Check airway for blockage/aspiration
  - Check pulse
  - Be prepared to perform CPR, as indicated
- An emergency medical kit is located on at the front desk.
- Emergency oxygen units are available and specific locations will be indicated during the clinic tour.
- AED unit is available on the north wall of the front desk.

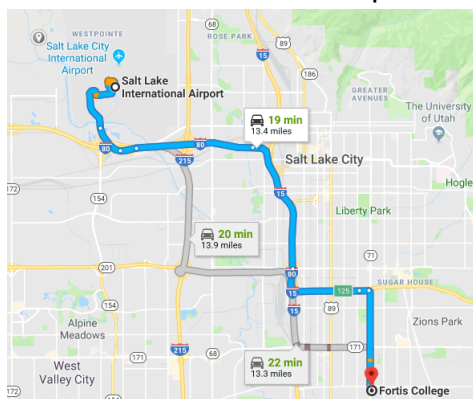

- In the case of any medical emergency candidate must immediately notify WREB chief examiner.
- Candidate assumes all responsibility for medical emergency management of patient including resuscitative procedure & administration of emergency oxygen until relieved by EMS personnel.
- Eye wash stations are located on the sterilization room faucet, dental materials lab, and the sink across from the panorex machine.
- General first aid items (band aids, aspirin, etc.) are located on the second floor in the LRC.
- Ice packs are available from the front desk. An ice machine is available in the HVAC lab next to the dental hygiene clinic.
