- To contact Rose State College Campus Security, call (405) 733-7313.
 - In case of emergency, dial 911
- Emergency Call Box is located west of the Allied Dental Education Building.

• ATM Machine:

- Not available

• Food Services Onsite:

- No food services available onsite.

2. Preparing for the Exams

a. Hygiene Exam

• Patient Screening:

- The facility will **not** be available for screening.
- Candidates must provide their own patients.
 - You are strongly advised to bring your own patients with you. If you cannot, you will need to explore other alternatives (private practitioners in the area, personal contacts, community shelters, etc.) on your own.
- Rose State College will not assist with obtaining patients.
- The Rose State College Dental Hygiene Clinic will not assume responsibility for any follow-up patient care.

• Radiographs:

- Radiographic facilities are available in digital format only.
- Candidates are responsible for taking their own radiographs. An assistant will be available to help with equipment set-up.
- Equipment available: one (1) NOMAD handheld x-ray unit to be used with Gendex digital sensors
 - Instructions for use are available for reference
 - Due to equipment limitations, it is highly recommended that candidates have taken radiographs before arriving for the exam.

- Images will be printed on regular copy paper, unless Candidate provides higher quality paper.
- No additional fees are required for use.
- **Administration of Local Anesthetic:**
 - Rose State College does **NOT** provide practitioners to administer Local Anesthesia.
 - If you have not fulfilled the requirements necessary to administer anesthesia, you must make arrangements for an Oklahoma licensed dentist or dental hygienist to administer it for you. This practitioner must provide WREB a copy of their current Oklahoma license and a current copy of their malpractice insurance.
- **Equipment, Instruments and Expendable Dental Materials:** Refer to the respective WREB Candidate Guide for a list of materials and armamentarium that the Candidate must provide.
 - A. Handpiece and Prophy Angle Hookups:**
 1. Standard hose connectors are at each unit.
 2. Handpieces are **NOT** provided for Candidate use.
 3. Candidates must bring their own handpieces.
 - B. Ultrasonic Devices:** *Pending Availability per CDC COVID-19 Standards*
 1. Standard quick disconnect air/water hookups for ultrasonic devices.
 2. Ultrasonic devices will **NOT** be provided by the facility.
 3. Candidates must bring their own ultrasonic devices.
 - C. Air/Water Syringe Tips:**
 1. Disposable plastic tips are provided
 - D. Blood Pressure Cuffs and Stethoscopes:**
 1. Blood Pressure Cuffs and Stethoscopes are **NOT** provided for candidate use.
 2. Candidates must bring their own Blood Pressure Cuffs and Stethoscopes.
 - E. Expendable Materials:**
 1. Expendable dental materials supplied by the school are noted in **Appendix A**.
 2. Candidates are responsible for supplying any additional items not listed in **Appendix A**.
 1. Rose State College is a latex-free facility.
 3. Candidates are required to provide their own OSHA Approved N95 masks, gowns, head coverings, and Face Shields.
- **Sterilization Services:**
 - Sterilization services will only be available for those candidates retaking the exam onsite.
 - Sterilization pouches will be provided to package items for sterilization.
 - Packages will need to be labeled with Candidate ID #.
 - For retake exams, the sterilization service will be available from 7:00am to 6:00 pm.
 - All candidates will need to bring a closeable, puncture-proof container clearly labeled with “Biohazard” stickers/signs and candidate ID# to safely remove contaminated instruments from the facility.

3. During the Clinical Exam

- **Dental Operatory Units:**
 - Each clinic operatory is equipped with an A-Dec dental unit.
- **Infection Control:**
 - The infection control policies of the school follow ADA, OSHA, and CDC guidelines. They include standard precautions (all Patients must be treated as if they are infectious). Gloves, N95 masks, face shield, eyewear, head covering, and gowns must be worn during all direct patient care. Candidates are responsible for providing OSHA acceptable eyewear for themselves and their patients.
 - **Order for donning PPE:** gown, head covering, N95 mask, protective eyewear or loupes, protective face shield, gloves
 - **Protocol for opening sterile instruments:** Without gloves on, open the pouch or wrapped instruments but do not touch the items with bare hands. Gently shake instruments onto the barriered tray. Discard empty wrapping materials in trash receptacle.
 - Patient Care:
 - Candidates must wear treatment gloves, head covering, protective eyewear, protective face shield, and N95 mask during patient treatment for the safety and protection of the clinician.
 - Patients must wear protective eyewear during treatment for the safety and protection of the patient.
- **Unit Set-up**
 - Perform routine handwash
 - Gather supplies and set-up unit barriers; retrieve from centrally located cart on clinic floor.
 - Chair barrier
 - Patient chair
 - Clinician chair
 - Light handle barrier
 - Each light handle
 - Air/water syringe barrier
 - For applicable lines: air/water syringe, saliva ejector, HVE
 - Bracket tray barrier
 - Tape/cover-all tape
 - Dental light switch
 - Chair control keypad, if applicable
 - Operator chair adjusting levers
 - Air/water syringe tip
 - Saliva ejector
 - HVE tip
- **Dental Unit Water System**
 - The bottle holds enough water for a normal day's use. Heavy use may require a refill during procedures. Please contact facility contact person for assistance.
- **Unit Breakdown** – At the END of the session, once the patient is in the examination area or if a backup patient is being utilized.
 - Perform routine handwash
 - Retrieve new N95 mask and don
 - Don protective eyewear and face shield
 - Retrieve heavy-duty utility gloves from under unit sink and don
 - Retrieve wipes container and personal puncture-proof storage container and place on the countertop.

- Place instruments/equipment (i.e. cassette, dental hygiene handpiece, etc.) in container and secure lid.
- Dispose of blood/fluid soaked gauze/cotton rolls in provided red biohazard bag and take to the Biohazard bin located on the clinic floor. All other trash may be disposed of in the trash receptacle.
- Remove and discard barriers (barriers, tape from counter, etc.) and any other disposable materials into unit trash receptacle.
- Examine sink trap and remove any debris.
- Pour Vital Defense-D disinfectant over heavy-duty utility gloves but do not remove. Using soap mixture and paper towels, clean the following surfaces:
 - All areas of cart, including sides, top, drawer handles, etc.
 - All vinyl on clinician chair
 - All vinyl on patient chair, including plastic cover for foot area.
- Using provided disinfectant wipes, clean the following surfaces:
 - Light handles, switch, and arm (NOT light shield)
 - Bracket tray, including arm
 - Air/water syringe, handpiece connectors, suction connectors, holders, and hoses
 - Countertops, including under laptop
 - Sink rim
 - Inside collar of trash receptacle
 - Clinician's chair levers
 - Personal storage container
 - Cord box at the foot of the patient chair
 - Rheostat
 - Any other surfaces that need to be cleaned
- Repeat the above disinfectant wipe cleaning step to disinfect all surfaces listed above. Allow treated surfaces to soak for 2 minutes to achieve disinfection.
- Retrieve one fresh disinfectant wipe
 - Wipe container, secure lid, and turn upside down
- Remove trash and tie bag closed
 - Deposit the bag in the large trash bin located in the candidate side clinic area.
 - Replace with new trash bag located at the bottom of the trash receptacle
- Retrieve one fresh disinfectant wipe and secure the container lid
 - Wipe heavy-duty utility gloves and discard wipe in trash
- Doff heavy-duty utility gloves and place under unit sink.
- Perform routine handwash
- Flush all dental lines
 - Remove air/water syringe from bracket tray and hold over sink (or use patient drinking cup) press water button, flush for 30 seconds
 - Flip rheostat switch to the blue dot.
 - Remove the saliva ejector from bracket tray and hold under hot running water in the sink. Turn suction on and suction hot water for at least 30 seconds.
 - Remove the HVE suction line from the bracket tray and hold under hot running water in the sink. Turn suction on and suction hot water for at least 30 seconds.

A. Hazardous Waste Disposal:

- **Hygiene:**
 - Place blood/fluid-soaked materials in provided biohazard bag and take to Biohazard bin located on clinic floor.

B. Sharps Disposal:

- Sharps containers are located on countertops at all operatory units. Carefully place all needles, used local anesthetic carpules, and any other sharps in this red plastic container.

- **Emergency Medical Equipment:**

- Emergency kit, portable oxygen tank, and AED are on the clinic floor.
- To dial EMS from a clinic phone, dial 9-911.

4. Travel and Lodging Information

- **Airport Information:**

- Will Rogers World Airport
- flyokc.com
- 7100 Terminal Dr, Oklahoma City, OK 73159

- **Ground Transportation:**

- Enterprise Rent-A-Car 1-800-736-8222 enterprise.com
- Hertz Rental Care 1-800-654-3131 hertz.com
- Airport Express 405-681-3311
- Taxis are accessed from the baggage claim level.

- **Hotel Accommodations:**

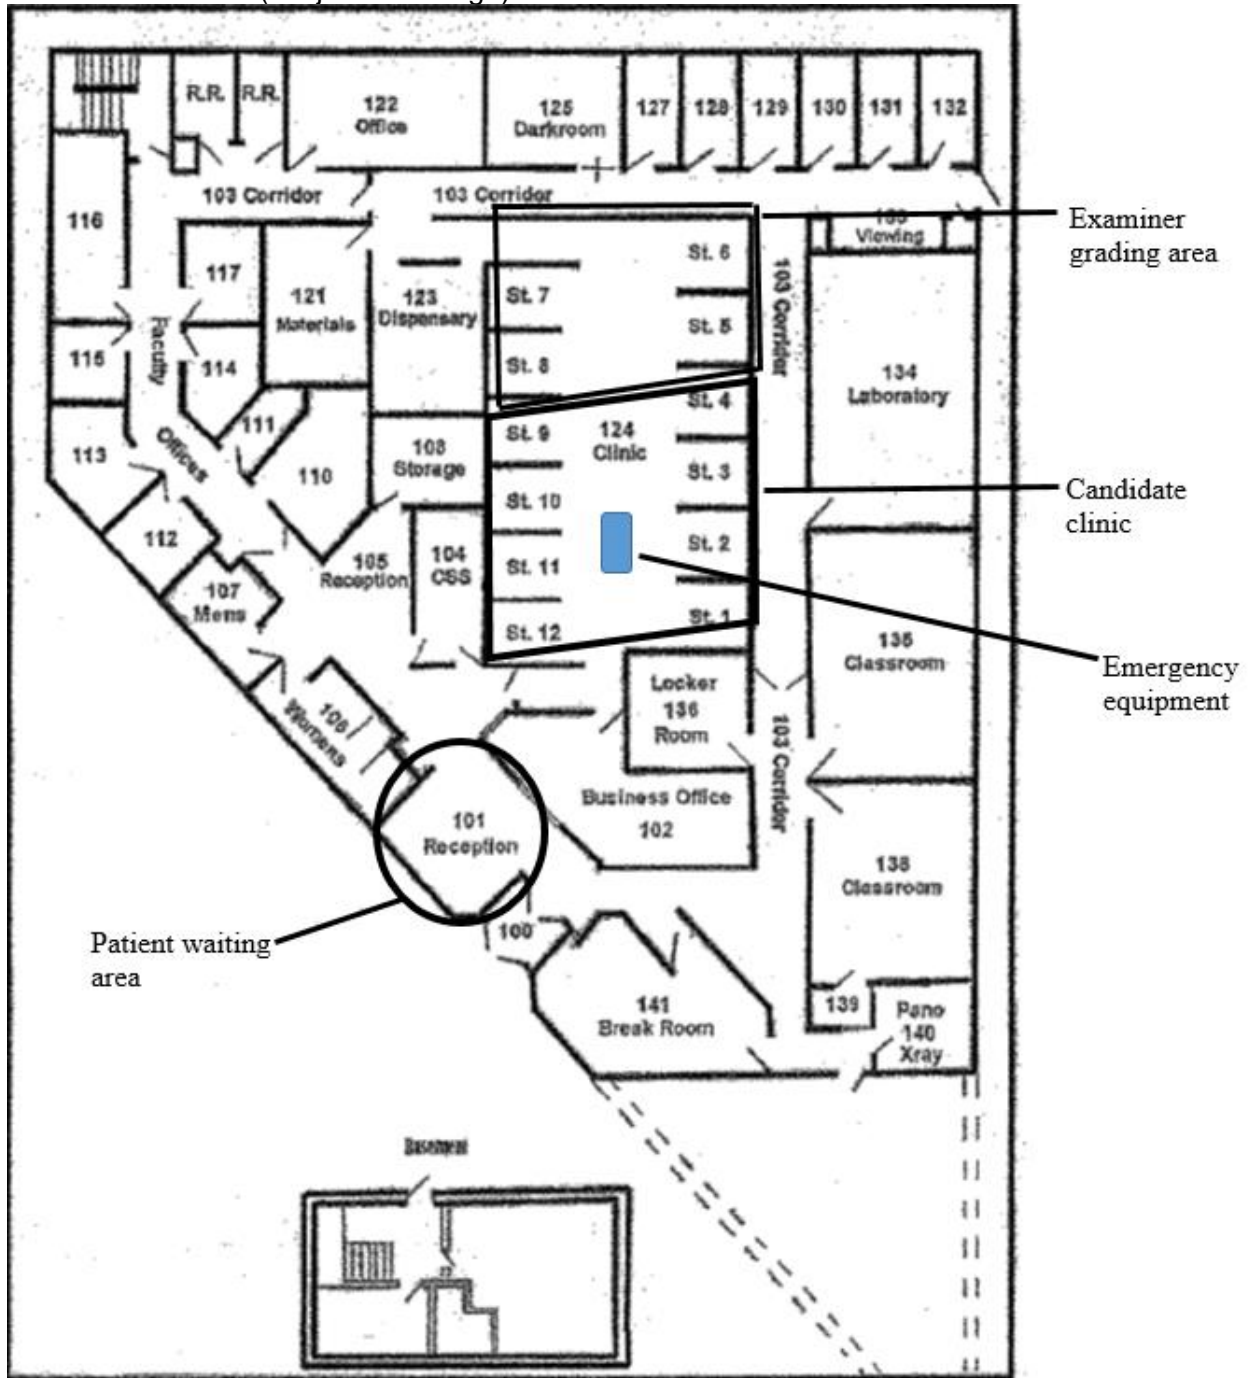

- Sheraton at the Reed Conference Center, 5750 Will Rogers Rd, MWC OK 73110 (405) 455-1800
- Home2 Suites by Hilton OKC, 1820 Warren Dr, MWC OK 73110 (405) 610-6994
- Hawthorn Suites by Wyndham MWC, 5701 Tinker Diagonal MWC OK 73110 (405) 622-3315
- SpringHill Suites by Marriott, 5400 Main St, Del City OK 73115 (405)604-0552

5. Campus Map:

- a. Physical address for the Allied Dental Education Building: **6301 Tinker Diagonal MWC, OK 73110 (I-40 Service Road)**
- b. Enter the building on the southwest side of the building.
- c. Temperature screenings and masks will be required for candidates and patients.
- d. Please park in the parking lot west of the building.

e. Clinic Floor Plan: (subject to change)
