

INFORMATION REGARDING WREB DENTAL HYGIENE EXAMS OBSERVATION

Each year, WREB invites dental hygiene faculty to observe a WREB examination. WREB understands the benefit of observing the examination process and wants to provide a quality experience for each observer.

It is assumed that the individual chosen and funded by a school will share what they learn with the rest of the faculty at the school, so it is not necessary for all educators at a school to observe an exam. Due to the large number of educators desiring to observe, WREB finds it necessary to limit the number of observers per location in order to maintain the integrity and flow of the examination.

Please note the following:

- Space is limited.
- Each school may submit no more than one observer in any year.
- Each observer is limited to one observation every five years.

Additional considerations. The observer assignment schedule consists of an Examiner Calibration (AEW) session the *day of or prior to* the first Clinical exam date. Finalized schedules and exam site information are provided approximately four (4) weeks prior to exam.
