CREIGHTON UNIVERSITY
SCHOOL OF DENTISTRY
APRIL 2-5, 2020

WESTERN REGIONAL EXAMINING BOARD

SITE INFORMATION TO CANDIDATES
SITE INFORMATION TO CANDIDATES

**Patients:**

Creighton University School of Dentistry cannot provide patients for candidates. Patient brokering (selling of patients) will not be tolerated under any circumstances within the school of dentistry or on the premises of The University. Violation of this rule will result in immediate removal from the university campus. Please do not ask anyone at the school for patients or patient records.

**Payment for Non-Students**

The $75.00 fee for non-students, which is separate from your WREB registration fee, must be received no later than two (2) weeks prior to the examination, in the form of a Cashier’s Check or money order. The fee must be mailed to the address and contact below.

Dr. Scott Radniecki  
Creighton University School of Dentistry  
2109 Cuming St  
Room 339 I  
Omaha, NE 68178

**Patient Screening:**

The Dental School does not have patients available for candidates to screen. Candidates who solicit patients from the surrounding area may bring patients to the Dental School for examinations and/or radiographs on Wednesday, April 1st from 9:00 AM to 11:00 AM and Thursday, April 2nd from 2:30 PM to 4:00 PM. Any candidate wishing to examine a patient or expose radiographs on the 1st or 2nd must coordinate with the site coordinator a minimum of one week prior to screening.

**Radiographs**

Provisional radiographic acceptance is allowed for Creighton-candidates only. Radiographic services will be available prior to the exam on Wednesday, April 1st in the morning and Thursday April 2nd in the afternoon. Candidates wishing to utilize radiographic services for their patients need to contact the radiology assistant, Ms. Julee Davis (402-280-4828), a minimum of 1 week prior to the exam to set up an appointment for their patient(s). It is strongly recommended that candidates have radiographs taken before arriving at Creighton Dental School.
Radiographic services include direct (sensors) and indirect (phosphor plates) digital radiography. Both direct and indirect digital radiographs are accepted by the WREB licensure examination. Images will be downloaded to the Creighton digital system for non-Creighton candidates in coordination with the site coordinator.

**Supplies:**

The following supplies are provided to the candidates in a mobile cart, at clinic stations, at the dispensary (room 143). The mobile carts will be near the clinic operatory and the other locations are within easy access on the main clinic floor. Cavicide disinfectant is at each clinical operatory.

**Clinic Supplies**

**Dental Cart**
- Patient napkins
- 25 & 27 gauge long needles
- 30 gauge short needles
- High volume evacuation tips
- Saliva ejector tips
- Floss
- Air water syringe tips
- Patient napkin clips
- Topical anesthetic
- Tongue blades
- Tray covers
- Cotton tip applicators
- Cotton rolls
- 2 x 2 gauze
- Disposable prophy angles
- Prophy paste
- Ultrablen
- Acid Etch kit
- Etchant bond, microbrush, clear matrix strip
- Consepsis
- Matrix bands #1, #2
- Finishing strips
- Disposable dappen dishes
- Articulating paper
- Microbrushes
- Earlogs masks

**Clinic Floor Station**
- Styrofoam trays
- Local anesthetic
- Amalgam
- Wedges
- Masks: ear loop and cone
- Mouth wash
- Drinking cups
- Headrest covers
- (Impression material) high/low viscosity, and putty
- Integrity (temporary material)
- Regisil bite registration
- Dermadam
- Dermadam napkins
- Vaseline
- Sterilization bags
- Sterilization tape
- Hemodent
- Retraction cord
- Viscostat
- Wedges
- Soflex Discs
- HO Matrix Bands, #1, #2
- Clear Matrix Strips
**Prosthodontics**

The prosthodontic examination will be conducted in room 326 (third floor). This is a simulation laboratory. The laboratory will be equipped with manikin assemblies and typodonts. Facial shrouds will be used for the manikin prosthodontic examination. The prosthodontic modules will be attached to the typodont base with a magnetic mount. The prosthodontic modules may be purchased from Acadental products. Their address is Acadental, 9204 Bond St, Overland Park, KS 66214. The Acadental typodonts, (Acadental ModuPRO One MP_R320) will be supplied by the school and WREB.

**Endodontics**

The endodontic examination will be conducted in room 326 (third floor). This is a simulation laboratory. The laboratory will be equipped with manikin assemblies and typodonts. Facial shrouds will be used for the manikin endodontic examination. The endodontic modules will be attached to the typodont base with a magnetic mount. Digital radiography only will be available in the endodontic lab. The school will supply gutta percha (.04 and .02 ISO size and MF accessory cones) paper points, and AH plus sealer, irrigating solutions (water), and irrigating syringes (23 gauge side vented irrigating needle). High speed electric fiberoptic hand pieces will be available in the endodontic lab. Candidates may rent an electric handpiece from Creighton University, or bring their own high speed with fiberoptic attachment coupler/swivel. The candidate is expected to furnish their own rotary instrumentation and/or files. The endodontic modules may be purchased from Acadental products. Their address is Acadental, 9204 Bond St, Overland Park, KS 66214. The Acadental typodonts, (Acadental ModuPRO MP_R220) supplied by the school, will accept magnetic mounted segmented modules.

**Dental Units:**

Dental units on the clinic floor are Midmark Elevance units and are supplied with high volume suction and quick connect water source for ultrasonic scaler use. Dental units are set up with a high speed 6 hole female connection for high speed couplers and handpieces. The slow speed line has a standard 4 hole female connection for slow speed couplers and handpieces. The simulation lab has one hose with a 6 hole female connection for both high speed and slow speed, air driven handpieces. Electric Bien Air handpieces are available for rent if candidates do not provide their own compatible handpieces AND couplers (commonly known as “swivels”).
**Equipment Rental:**

Dental instruments and equipment will be available for rental. All rental equipment is the property of Creighton University. Creighton University School of Dentistry is now an “all-electric handpiece” school. There are still hookups for air driven handpieces if candidates wish to use their own handpiece. There is a significantly different in feel and torque between an air driven and electric handpieces. Candidates are strongly encouraged to stay with the type of handpiece they are used to. It is imperative that candidates needing to rent equipment must rent it PRIOR to the exam. **All handpiece rentals are electric handpieces. If equipment rental is anticipated you must complete the enclosed form two weeks prior to the exam** and return it to Dawn Conner c/o Creighton University, School of Dentistry, 2109 Cuming St., Omaha, NE 68178, ph # 402-280-5037, email: DawnConner@creighton.edu. Equipment rental payment will be collected Ms. Conner. Upon payment for equipment, a voucher will be issued for the items rented. These items will be available from the dispensing room (143) on the days of the exam. **There will be no equipment rental during the exam.** Payment for equipment is due upon voucher pick up and must be cash or certified check (credit or debit cards are not acceptable). If you have questions concerning rental you may contact Ms. Dawn Conner. **Burs, endodontic instruments, and periodontal instruments are not included in the instrument rental.** Candidates are required to bring any equipment not listed in the rubber dam or operative kit list. The equipment contained in each kit is listed in the appendix with the candidate rental agreement.

**Dental Unit Malfunctions:**

Report unit malfunctions to the reception desk at the main clinic entrance. An equipment technician will come to your unit as soon as possible. Be sure to give the unit number (located on the face of the unit) to the receptionist.

**Advertising:**

Any candidate placing an advertisement for patients in the local media may not use the Creighton University name or logo or mention Creighton University in the advertisement.
Parking:

Patients may use any of the parking lots marked “P” below. Candidates from outside Creighton University may use any of the parking lots marked “P” below. Candidates who are current students at Creighton University are to park in the lot marked “DS” or street/metered parking. Request for information regarding school facilities or services, may be made to Dr. Scott Radniecki, (402) 280-5069, or Dr. Scott Shaddy, (402) 280-5226.
Food Service:

The 3rd floor of the Dental School has a student cafeteria accessible to candidates with a limited number of vending machines for snack purchase and refrigerators for food storage. Hot meals are not available. Patients do not have access to the 3rd floor. Subway and McDonald’s restaurants are within 1 block of the dental school.

INFECTION CONTROL PROTOCOL

SURFACES ASEPSIS:

All counter tops, chair surfaces, and operatory fixtures should be wiped with disinfectant spray. The disinfectant spray bottles are available in the operatory units. Headrests and light handles should be covered with plastic wrap, available at clinical supply stations on the clinic floor.

WASTE DISPOSAL:

Hazardous waste consists of materials containing substances that are or have the potential to be detrimental to ones health or environment. Containers for disposal are available at each clinic supply station and so labeled.

Non-Hazardous wastes are disposed of using the receptacles located under each operatory sink.

Sharps must be disposed of in properly marked containers. These containers are located on the main clinic floor.

STERILIZATION PROCEDURES:

Candidates supplying their own instruments should follow this protocol:

A. Instruments should be cleaned with soap and water and thoroughly dried.
B. Sterilizing bags are available at the sterilization check-in window (Room 142).
C. The candidate’s name and number should be placed on the sterilizing bag.
D. All sterilizing bags should be turned into the sterilization check-in window (Room 142) for sterilization
E. Sterilization will begin at 7:30 AM and continue until 5:30 PM. Each sterilizing cycle takes a minimum of 45 minutes. Instruments turned in after 5:30 PM will be sterilized the following morning and will be ready for use by 7:30 AM. All sterilized instruments may be picked up in dispensing room 143.
# EQUIPMENT RENTAL LIST

**Operative Cassette**

Slots from left to right

- Mirror
- **23 Explorer-Probe**
- Spoon Excavator 38-39
- Hatchet 8-9
- Hoe 14-15
- Mesial Margin Trimmer 29
- Distal Margin Trimmer 28
- Small Condenser
- Large Condenser
- IPC
- ½ Hollenback
- Cleoid/discoid
- Walls Carver
- Composite Instrument
- Ball Burnisher
- Apple Seen Burnisher
- Cord Packing Instrument
- Curette/Scaler
- Cement Spatula
- Aspirating Syringe
- Cotton Pliers

**Rubber Dam Cassette**

Large Free Space

- Rubber Dam Forceps
- Rubber Dam Frame
- Rubber Dam Punch

Small Free Spaces

- W00
- W2
- W3
- W4
- W7
- W8
- W9
- W212
- W14A
- W14DT

Top Free Space

- Bard Parker Handle
- Dycal Applicator
- Matrix Band Retainer
- Articulating Ribbon Holder (Millers Forcep)
- Amalgam Carrier
- Small Amalgam Well

Attached to Lid

- Crown and Collar Scissors
- Curved Kelly Hemostat
Medical Emergency Protocol

In the event of a medical emergency, please follow the clinic emergency protocol which is posted in several locations throughout the clinic, including treatment operatories. The examiner will have access to the school’s automatic external defibrillator (AED) and provide appropriate action according to the American Heart Association (AHA) standards until emergency responders arrive.

A fully equipped “crash cart” with an Automated External Defibrillator (AED) will be located in the clinic area during the exam.

Another AED is located outside room 153 in the middle of the south side of the main clinic.

CLINIC EMERGENCY PROTOCOL

1. The candidate or assistant identifies a potential emergency situation may be occurring.
2. The candidate notifies the nearest floor examiner or grading examiner.
3. If the examiner concurs a true emergency is taking place, the candidate goes to the designated area and obtains a crash cart and pulse oximeter and takes it to the operatory.
4. If upon assessment by examiner, it is determined that an emergency situation requiring immediate medical assistance is occurring, the candidate goes to the nearest dental assistant and instructs them to call 911. The candidate also informs the chief examiner of the emergency situation.
5. The dental assistant will initiate the 911 call giving the dental school address to the 911 operator: 2109 Cuming Street
6. Following the 911 call, the dental assistant will call Public Safety (2911) and inform them a 911 call has been made.
7. The dental assistant making the 911 call will go to the loading dock entrance and lead the rescue personnel to the appropriate location of the emergency.
8. As soon as possible, include the Creighton site coordinator.
