Welcome to the Portland Community College Dental Clinic
Located on the Sylvania Campus

WREB Examination
Restorative Exam:  May 18-22, 2017
Dental Hygiene and Anesthesia Exams:  June 1-5, 2017

Address:  12000 SW 49th Ave. Portland, OR 97219
Building/Room:  Health Technology Bldg (HT)  Rm 206

School Coordinator:  Josette Beach, RDH, MS
Phone:  971 722-4235

Note to Candidates:  The Portland Community College Dental Department cannot provide patients for candidates. Please do not call the school concerning the obtainment of patients nor ask for school confidential patient records. Recruitment of patients for the exam/s is entirely up to the candidate.

Some candidates looking for patients in the area choose to visit community clinics, contact local dentists or post information at nearby universities. It must be clear that WREB candidates are not acting on the part of Portland Community College and that the arrangements made are private between the candidate and the patient.

Directions:

Airport Information:  Portland International Airport (PDX)
The airport is 15.8 miles from the Sylvania Campus (about 29 minutes).

Directions from the Airport:
1. Bear left at NE Airport Way (go .9 miles)

Messages: Candidates may have messages left for them by calling 971 722-4235. Location of the message board will be shown to the candidates during the clinic tour. Cell phones should be turned off during the examinations.

May 2016
Food Service: Monday thru Saturday The “CHILL” Cafe is open in the College Center (CC) Bldg. from 7:30am-2pm. Espresso, breakfast pastries, sandwiches, salads, desserts, ice cream, and fruit are served. (see campus map).

Sundays: No food service on campus is available. Vending machines are located on the first floor of the bldg. Walter Mitty’s restaurant and numerous fast-food restaurants are located within minutes of the campus.

Attractions Near PCC: Tigard Cinemas 2 miles from PCC
Washington Square Mall: 3 miles
Downtown Portland 7 miles
Oregon Health Sciences Univ. 8 miles
Bridgeport Village (shopping) 2 miles

Screening: PCC CAN NOT provide patients for the candidate. Candidates are NOT allowed to utilize the clinics for screening purposes prior to their examination time.

Radiology Supplies

And Information: The following supplies will be provided for candidate use:

<table>
<thead>
<tr>
<th>Double and Single pack films</th>
<th>Digital Sensor and Panoramic Imaging</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cotton Rolls</td>
<td>BW Tabs</td>
</tr>
<tr>
<td>Clear pocket mounts</td>
<td>XCP* or Stabes film holding device</td>
</tr>
<tr>
<td></td>
<td>(*must be bagged and left in sterilizing area after use)</td>
</tr>
</tbody>
</table>

- Peri-pro film processors will be available to process the radiographs.
- Portland Community College Dental Department is not responsible for providing a dentist to sign the radiograph requisition. It is the responsibility of the candidate to have the requisition signed by a licensed dentist.
- Radiograph duplication is done for a $5.00 fee (paid at the time the duplicate is made). Please see the PCC Dental Receptionist as soon as possible to request a duplicate or printed copy of images. You may contact her at 971 722-4909.
- Radiograph facilities will be available to candidates for exposure of patient radiographs only on the candidate’s exam date.

Administration of Local Anesthesia: A practitioner from the Portland Community College Dental Clinic is NOT available to administer local anesthesia to candidates’ patients. There are no exceptions to this policy.

May 2016
Clinic Equipment: It is highly recommended that candidates set up and try equipment before the exam. All candidates will be supplied with a cart top for the exam.

- Candidates MUST supply their own ultrasonic scaler – there are no exceptions to this policy.
- Dental units have water hookup for ultrasonic scalers.
- Disposable air/water syringe tips are not used in the PCC dental units. The PCC department will supply the Adec factory syringe tips to the candidates. Candidates will return the air/water syringe tips to the designated area in the sterilizing room following operatory break-down.
- Disposable prophy angles will be provided to the candidates interested in performing polishing procedures.
- PCC DOES NOT PROVIDE Curing lights, Cavitrons, Handpieces or Ultrasonic Scalers. Please ensure that you also bring the appropriate handpiece adaptor (coupler) in order to attach your handpiece to the dental unit.
- PCC cannot guarantee that you will have an amalgamator solely for your use. Candidates most often will have to share the PCC amalgamators. If you would like one that is for your use only, please make arrangements to bring one for yourself. Please supply your own amalgam capsules and composite for testing purposes during the tour and also for placement during your exam.
- Please find enclosed information on the chairs and handpiece controls.

Infection Control: Candidates must wear appropriate clinic attire and PPE. The school will provide disposable nitrile gloves and masks (PCC does not have latex gloves available). Candidates must supply OSHA acceptable safety glasses for themselves and their patient and also their own operator lab coat.

Candidates must disinfect the dental operatory with the disinfectant wipes provided. All touch surfaces on the dental unit must have barriers placed. Non-critical areas do not need to be covered with barriers, but must be disinfected with the supplied wipes following examination.

Antibacterial soap is available at sinks and waterless alcohol based hand cleaner is located at each dental unit.
Non “bloody” items may be disposed of in the general garbage. Items that are soiled with blood will be disposed of in a red biohazard bag at the dental unit. Following the examination, the red bag is brought to the sterilizing room.

Sharps are to be disposed of properly in the sharps containers located at each sink. Amalgam Scrap and the empty amalgam capsules are to be disposed of in the designated containers also located at each sink. **DO NOT put them in the garbage.**

When **immediate re-use is needed**, sterilization of anesthetic syringes/instruments is available for the candidate. Items may be placed in a sterilizing pouch and labeled with the appropriate candidate ID #. A tray will be available for the candidate to deposit the wrapped syringe/instrument for sterilization. **Your candidate number must be clearly marked on the instrument bag.** Instruments turned in for sterilization after 4:45 pm will not be ready for pick up until candidates are allowed on the floor the following day. Please bring DH Clinical exam instruments back to your school or dental practice for sterilization (unless needed for immediate re-use during the exam).

**Tours:**

A tour of the facility will be held the day of the candidate orientation only. **We are unable to provide tours prior to the day of the candidate orientation.** Restorative exam applicants are encouraged to test amalgamators at the orientation. **Please supply your own amalgam capsules for testing purposes during orientation.**

**Medical Emergencies:** The following protocol must be followed upon discovering a serious medical emergency:

a. The candidate must stay with the patient.
b. Inform an assistant or responsible person to alert the floor examiner of the emergency.
c. The floor examiner will determine if emergency personnel should be contacted (Note location of emergency equipment on the clinic floor plan map.)
d. Contact emergency personnel by dialing x4444. Follow the directions next to the phone for stating nature of the emergency and location.
e. Emergency personnel assess the patient/situation and contact 911 if needed. If campus emergency personnel cannot be reached, the floor examiner should determine if the EMS system should be activated. Do this by
dialing 911. Follow the directions located next to the phone for stating nature of emergency and location.

f. Documentation should be left with the Site Coordinator detailing the nature of the emergency, procedures followed, care given, and referral or patient instructions given. The candidate is responsible for having the floor examiner approve the documentation and for providing it to the Site Coordinator.
