Testing Site Information
Western Regional Examining Board
Dental Anesthesia &
Dental Hygiene Exam
2017
Clinic Equipment:

There are 20 A-dec Radius operatories in the dental hygiene clinic consisting of a cart, dental chair, overhead light and radiograph view box. Each operatory contain a Dentsply Cavitron ultrasonic scaler unit for 30K ultrasonic inserts. The ultrasonic inserts are not included. Sterilized Cavitron Serimate detachable handpiece and dental handpiece for coronal polishing will be provided. The operatories are equipped with self-contained water systems that will be maintained by the floor assistant.

Equipment Rental:
Ultrasonic Insert with 30K tips, aspirating anesthetic syringes, locking hemostats, probes, mirrors, and 11/12 explorers will be available to rent on the day of your exam.

Rental policy:
You cannot reserve equipment in advance; it will be available at the clinic reception desk on the day of your clinical exam. There is a $5.00 non-refundable fee for use of a syringe, locking hemostat, probe, mirror, or explorer. There is a $20.00 non-refundable fee for use of ultrasonic insert. We accept check or cash payments - change is not readily available. A sample rental form is attached.
Radiographs:
The completion of patient’s radiograph prior to WREB scheduled examination dates is recommended. Phoenix College dental clinic is equipped with digital radiograph equipment and Dexis program. The use of the radiograph equipment, PSP plates, and XCP/Rinn positioning devices will be available for candidates who are in need of retaking a radiographs. Candidates will be responsible in taking their own radiographs and have access during their scheduled exam. Candidates are responsible in placing, exposing, processing and mounting radiographs. The floor assistant will print radiographs. Please inform school coordinator of need for retaking radiographs during candidates’ orientation or by phone at (602) 285-7331 prior to scheduled exam.

Availability:
Phoenix College does not have patients available for candidates taking the Dental Anesthesia or Dental Hygiene Exam.

Patient Screening:
Candidates who are in need of patient screening are to make arrangements with the school coordinator. Please call the school coordinator at (602) 285-7331. Screening instruments will be available for rental. Please see rental policy section and supply rental form. Phoenix College will provide a date prior to the WREB examination for patient screening. The dates posted are not available on a walk-in basis. Candidates must receive permission from school coordinator for patient screenings prior to arriving. It will be the candidate's responsibility to contact the school coordinator and make arrangements before the posted dated.

2017 Available Screening Dates:
8:00am - 10:30 am Thursday, May 11, 2017
8:00am - 10:30 am Thursday, December 14, 2017

Local Anesthesia Administration: Phoenix College does not staff a practitioner to administer local anesthesia.

A list of available independent practitioners will be included in testing site information packet when possible. It will be the candidate’s responsibility to contact and make arrangements for practitioner’s services in advance.

2017 Practitioner list:
Carol Thompson
Phone: (602) 999-4962
Email: cathompson51@yahoo.com

- Local Anesthetics (Lidocaine HCL 2% w/1:100,000 epinephrine, Articaine HCL 4% w/1:200,000 epinephrine and Prilocaine HCL without vasoconstrictor)
- Masks (ear-loop type)
- Oxygen/Emergency Equipment/Ice Pack
- Paper towels
- Patient napkins/Bibs
- Prophy paste
- Saliva ejectors
- Sanitizing materials
- Sharps container
- Sterilization bags (Available Sizes: 4.25” X 12”, 8” X 12”, and 8.5” X 15”)
- Topical anesthetic
- View boxes for radiographs
Parking / Phoenix College Healthcare Center Map:
Phoenix College Dental Clinic is located off the main campus on the corner of 7th Avenue and Flower Street. The address is 3144 N. 7th Avenue, Phoenix, AZ 85013. The dental clinic hours of operation during the WREB examinations are from 7:00 am to 5:00 pm.

Candidates and their patients are welcomed to park in unmarked parking spaces. There is no additional fee for parking. Follow the directional signs to the clinic entrance. All testing site activities will be held on the 2nd floor.
Infection Control Protocol
Universal Precautions and Standard Personal Protective Equipment are practiced in the dental clinic. This consist of the use of a lab coat, gloves, masks, OSHA acceptable protective eyewear, closed toe shoes and socks that cover ankles.

Unit Disinfection:
Flush waterlines for 30 seconds before setting up operatory. ProSpray disinfectant wipes will be available for use near each unit. Wipe and maintain agent contact with the surface being cleaned for 15 seconds. Disinfect the entire unit including handpiece lines, hoses, air/water syringe, HV E, saliva ejector, working surfaces, Cavitron unit, view box, light handles and switch to complete cleaning phase. Once completed, use another disinfectant wipe to wet all surfaces a second time to complete disinfection phase. Allow disinfectant to dry for 10 minutes. Use gauze and soapy water to clean the operator and patient chairs, and the lens cover of the dental light when visibly soiled. Do not use disinfectant on the lens cover, it will cause clouding.

Barrier Wrapping of Unit:
After proper disinfection of unit, surfaces that may be contacted during patient treatment must be wrapped with plastic film. You will be provided with plastic dental chair covers and barrier sleeves. Chair covers can be used to cover the patient chair, dental unit, Cavitron, and counter surfaces. Plastic sleeves will be provided to cover the attachments and cords of the handpiece, Cavitron, HVE, air/water syringe and light handles.

Waste Disposal & Evacuation System
Small biohazard bag will be available and recommended that it is attached to your unit while treating your patient. Please discard all blood or saliva soaked disposables into this bag. After treatment, tape the bag closed and place in the biohazard receptacle located in the main clinic island.

Used plastic wrapping and patient disposables that are not biohazardous can be placed in the trash containers located at each handwashing island. Used needles, anesthetic cartridges, broken instruments or any other sharps are to be disposed of in the sharps containers located at each unit.

The floor assistant will ask each candidate using the clinic at the end of the day to run vacuum system cleaner through the evacuation hoses. The units are equipped with self-contained water systems that will be maintained by the floor assistant.

Instrument Sterilization:
Instrument sterilization will be available to those who desire it. Please place instruments in sterilization bags clearly labeled with your name. Do not seal the sterilization bag if you want your instruments ultrasonically cleaned. Seal the sterilization bag if you do not want them ultrasonically cleaned. Sterilized instruments can be picked up at the front desk. Instruments received in the morning will be available in the afternoon. Instruments received at the end of the day can be picked up the following day. Sterilization will be closed at 5:00 pm daily. The floor assistant and school coordinator will work to the best of their ability with candidates who will be retaking an exam on site to have instruments sterilized, however it is not certain.
Emergency Protocol

Procedure for Reporting an Emergency:

A. The person who discovers the emergency will verbally alert a WREB official
B. The WREB official will assist by:
   1. Delivering the Medical Emergency Cart (contains oxygen and emergency kit)
   2. Alerting the front desk to call 911 and District Public Safety at 4-0911
C. Meanwhile, the person who discovered the emergency will begin a primary assessment:
   1. Check for responsiveness, airway, breathing, and pulse. **IF** there is no breathing
      and/or pulse, artificial respiration or CPR is started immediately.
   2. If there is breathing and pulse, a secondary survey should be started including
      review of medical history and recording of blood pressure and pulse every
      5 minutes.
   3. Oxygen support should be instituted if any signs of lack of oxygen are noted.
D. WREB official summoned will:
   1. Immediately go to the emergency location
   2. Assess client and assume responsibility for emergency treatment until someone
      with more training has arrived and all pertinent information has been relayed.
E. Following the emergency:
   1. If 911 is notified, an Incident Report must be filed with Phoenix College
      Campus
      Safety. (602-285-7254)
   2. The emergency must be documented in the patient’s record.

Location of Emergency Equipment

A. The Portable Medical Emergency Cart is located on the North West side of the clinic
   near the exit.
B. The Automatic External Defibrillator Unit is located on the North West wall of the
dental clinic.
C. Four Eyewash Stations are available:
   1- located the east side of the dental clinic
   1- located on the north side of the dental clinic
   1- on the west side of the dental clinic
   1- inside the Sterilization Room (HE A232)

Evacuation Plan: Posted throughout the building near the fire pulls and exits

Instructor stations located in the dental clinic contain quick reference sheets for emergency
protocol and phones.
