## 1. School Facility and Services

- **Location, Building Access and Hours:** *San Joaquin Valley College Dental Hygiene Clinic, 8344 West Mineral King Avenue, Visalia, CA 93291; Contact Brenda Serpa @ (559) 651-1617; building open 6:00am-6:00pm daily for duration of exam*
- **Parking:** Free parking in Dental Hygiene clinic parking lot; no permits required
- **Security and Emergency Services:** Dial 911
- **ATM Machine:** Not available on campus
- **Food Services Onsite:** Food services available nearby, but not on campus during exam.

## 2. Preparing for the Exams

### Hygiene Exam

- **Patient Screening:** The SJVC Dental Hygiene clinic will not be available for patient screening outside of the candidates' WREB examination schedule.
- **Radiographs:** Digital x-ray equipment is available for radiographic images on the examination dates as needed. See fee schedule.
- **Administration of Local Anesthetic:** Practitioner(s) from the school is(are) **NOT AVAILABLE** to administer local anesthesia to Candidate Patients. There are no exceptions to this policy.
- **Equipment, Instruments and Expendable Dental Materials:** Refer to the respective WREB Candidate Guide for a list of materials and armamentarium that the Candidate must provide.
  - A. Handpiece and Prophy Angle Hookups:** What are the specifications for your handpiece and prophy hookups for Candidates who choose to bring their own? Are handpieces and/or prophy angles available for loan or rent? If so, state loan or rental policy (fee and acceptable forms of payment); indicate whether advance notification is required.
  - B. Sonic/Ultrasonic Devices:** WREB allows the use of sonic/ultrasonic devices as an adjunct to calculus removal. Are all operatories equipped for hookup of these devices? If so, state specifications. Are sonic/ultrasonic devices available for loan or rent? If so, state loan or rental policy (fee and acceptable forms of payment); indicate whether advance notification is required.
  - C. Air/Water Syringe Tips:** Are syringe tips disposable or non-disposable? If non-disposable, indicate procedure for collection or sterilization. Are additional tips available for purchase?
  - D. Blood Pressure Cuffs and Stethoscopes:** Are blood pressure cuffs or stethoscopes available for Candidate use?
  - E. Expendable Materials:** Expendable dental materials supplied by the school are noted in **Appendix A**.

- **Sterilization Services:** Sterilization for instruments will only be available for candidates who will be retesting on the Sunday afternoon session. Please note that there is no guarantee that the instruments will be ready for the final session if you are testing Sunday morning. Therefore, candidates must anticipate and plan their needs accordingly. Candidates must clearly print their full name and date on the autoclave bags, available at each unit. Candidates may retrieve their instruments when they are permitted back on the floor during their Sunday afternoon exam time. **No** sterilization will be available for instruments at the end of the last test session.
  
- **Dental Operatory Units:**
  - ADEC dental chair and light
    - All units accommodate right- or left-handed candidates
  - DENTSPLY 30K mounted magnetostrictive ultrasonic units
    - 30K inserts will fit these units
  - quick connect water source – receives male hose connection
  - 4-hole slow speed handpiece compatible hose/connection
  - evacuation system – high volume evacuation and saliva ejector
  - x-ray view box
  - candidate stool
  - distilled water
  
- **Infection Control (Surface Asepsis)** Note that proper PPEs should be worn at all appropriate times (gloves, eyewear, gown and mask). Candidates are expected to wear scrubs during the examination. Heavy gloves should be utilized during disinfection and break down of unit. All candidates are required to adhere to the following infection control steps:
  - Unit Set-Up
    - With Cavi-Wipes surface disinfectant, wipe down:
      - Unit control arm, trays and all hoses
      - Candidate/operator chair upholstery
      - Dental unit light handles and light switch
      - Dental unit countertop
      - Any personal items used (i.e., protective eye wear, bib clips)
    - Purge water unit lines for 2 minutes at the beginning of the day
    - Plastic bag or sleeve barriers will be on the set-up tray and will be placed on the following:
      - Full chair cover (bag)
      - Light handle (sleeves)
      - Air water syringes, suction, Cavitron handle (sleeves)
    - Place plastic tape (wrap – available at each unit) on the following:
      - Unit arms where contact is anticipated
      - Patient chair arms
      - Levers and switches
      - Unit control panel
      - Candidate chair where contact is anticipated (i.e., control levers)
  - Unit counter tops should be considered “clean” for paperwork and additional candidate items

**A. Hazardous Waste Disposal (exam-type specific):**

- **Hygiene:** Contaminated disposable items are to be placed in the chairside bags and then into the general trash receptacle at each sink.

**B. Sharps Disposal:** ALL disposable SHARPS must be placed in the SHARPS Container located under each sink.

- **Emergency Medical Equipment:** Oxygen tank and Emergency Drug Kit will be located near the WREB Chief Examiners table in the clinic. In the event of a medical emergency, notify the Chief Examiner immediately. The Site Coordinator will then be informed so that the Emergency Medical Team may be contacted

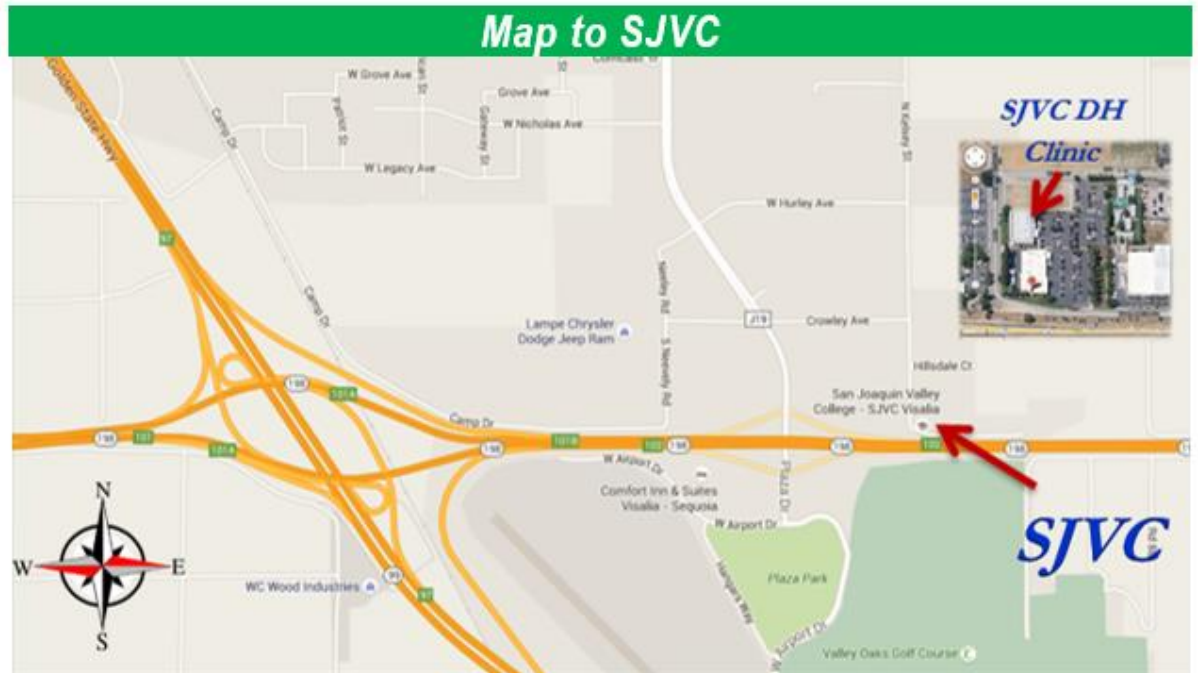

**3. Travel and Accommodation Information**

- **Airport Information:** FAT – Fresno Yosemite International Airport
- **Ground Transportation:** List airport shuttle service, public transportation
- **Hotel Accommodations:**
