

Carrington College COVID-19 Protocol for Clinical Exam July 9 - 10, 2021

Carrington College in Boise is pleased to be hosting the WREB clinical dental hygiene and local anesthesia exams - scheduled for July 9 -10, 2021. Please note the following infection control protocol and additional patient screening procedures that will be in place for this exam due to the COVID-19 pandemic:

Patient & Candidate Screening:

There will be a screening station for patients and candidates just inside the double door entrance to the large back parking lot of the campus (this is the East facing entrance) this will be the **only entrance open** for candidates and patients. (See map on next page)

All candidates and patients will be required to have their temperature taken and complete a short screening questionnaire prior to their first entry into the building. All who have completed the screening process will be provided with a “visitor” sticker identifying that they are approved to be in the building. This sticker must be worn at all times while in the building. Anyone with a temperature above 100 F, or who is exhibiting any COVID symptoms will not be allowed to enter the building.

Candidates and patients will be expected to use provided hand sanitizer upon entry into the building, as well as wear a face mask (your own, or we will also have masks available) at all times in the building.

***Please note: ONLY candidates and patients will be allowed in the building** – no additional people may accompany candidates into the building.

Social Distancing Expectations:

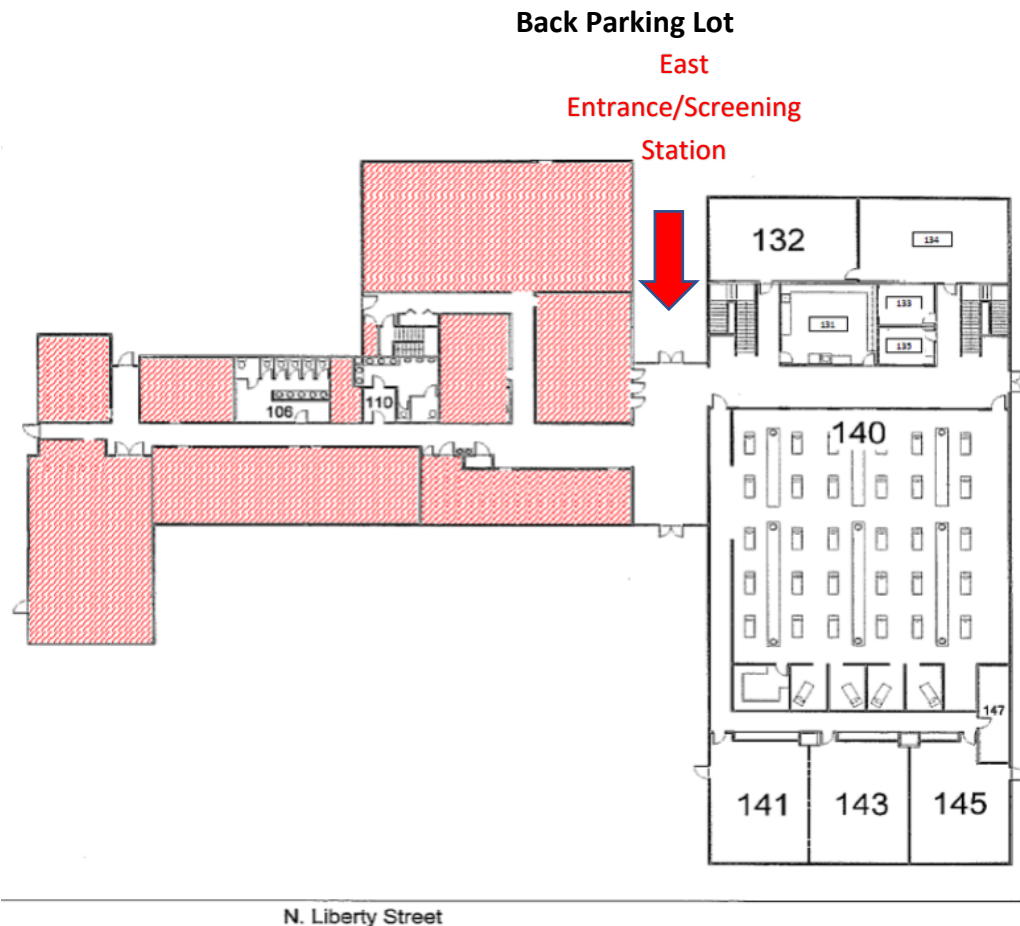

All persons in the clinic and general areas of the campus will be expected to maintain the required 6 ft. distancing when not working directly with WREB personnel and/or their clinical/local anesthesia exam patient.

Clinic PPE/Infection control:

Candidates will be expected to adhere to the following PPE guidelines in the clinic:

- A face mask is required at all times in the clinic
 - Masks will be provided by Carrington
- Level 3 or N95/KN95 masks are required once patient treatment has begun
 - Level 3 or KN95/N95 masks will be provided by Carrington
- Washable or disposable full-length gown must be worn at all times in the clinic

- Carrington has washable gowns available for use by candidates, we will launder these on site after use.
- Eyewear (loupes or safety glasses) must be worn once patient treatment has begun
 - Candidates are expected to bring their own eyewear
- A full-face shield must be worn over eyewear and masks once patient treatment has begun
 - Carrington will not have face shields available; **it is recommended that candidates bring their own.**
- Gloves must be used as required by standard precautions
 - Nitrile gloves in all sizes will be provided by Carrington.
- Hair coverings (surgical/skull cap) will be required in the clinic – disposable or washable are acceptable
 - Carrington will have disposable hair coverings available.
- **Ultrasonic use IS allowed for this examination** – each clinic chair is equipped with an extraoral suction device designed specifically to suction aerosols (A-flexX HVE Extra-Oral). The A-flexX Extra-Oral suction device **MUST** be used (positioned just outside of the patient’s mouth) during ultrasonic use.
