Sat., Jan. 21, 2017	Idaho State Univ., Pocatello, ID (RES)	1:00pm - 4:00pm

The purpose of the workshop is to spend more time discussing the WREB Restorative criteria and standardizing educators. This can be accomplished more efficiently when educators are actively involved in the standardization and grading process and there is sufficient time afterward for discussion and questions.

The workshop is only open to Restorative Educators whose students will be taking the 2017 WREB Restorative examination. Each educator attending the workshop must bring with them, an Acadental ModuPro One typodont and the same instruments used by WREB Examiners in the grading process. See the 2016 Restorative Candidate Guide for a list of the instruments.

The typodont must have three or four WREB Class II finished preparations (placed in the typodont). We would like a variety of maxillary and mandibular composite and amalgam restorations.

Please complete and return this form to my attention no later than October 3. Print additional forms if necessary.
