

Each year, WREB invites dental hygiene faculty to observe a WREB examination. Due to the large number of educators desiring to observe an examination, WREB finds it necessary to limit the number of observers to maintain the integrity and smooth flow of the exams. **Each school may submit no more than one observer in any year.** Each observer is limited to one observation every five years. Educators may not observe at a site where their students are taking the exam. WREB understands the benefit of observing and wants to provide a quality experience for each observer. It is assumed that the individual chosen and funded by a school will share what they learn with the rest of the faculty at the school, so it is not necessary for all educators at a school to observe.

If you wish to observe, please complete the observation application. Remember that educators who apply for a site and then cancel are taking the opportunity to observe away from another educator. **The deadline for applying is December 11, 2017.**
